DIN 2403:2007-05 (E)

Identification of pipelines according to the fluid conveyed

Contents

Page

Foreword 4

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Identification requirements 5
4.1 General 5
4.2 Allocation of colours to pipe contents 6

5 Type and means of identification 7
5.1 General 7
5.2 Arrangement of information within the identification 7
5.2.1 Arrangement of general information 7
5.2.2 Arrangement of supplemental information 7
5.3 Identification by means of painting and lettering or tapes/bands 7
5.4 Identification by means of labels, signs or plates 7
5.5 Design principles, dimensions, safe viewing distance and character height 7
5.6 Examples 9

6 Identifying pipelines for special purposes 10
6.1 Pipelines for supplying fire extinguishing media (fire mains) 10
6.2 Water supply systems 11

Annex A (informative) Hazard symbols, hazard statements and warning signs 13

Bibliography 15
