DIN EN 12254:2012-04 (E)

Screens for laser working places - Safety requirements and testing (includes Corrigendum AC:2011)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Requirements 5
4.1 Spectral transmittance 5
4.2 Resistance to laser radiation 5
4.3 Stability to UV radiation 5
4.4 Stability to elevated temperature 5
4.5 Mechanical strength 5
4.6 Resistance to ignition 6

5 Testing 6
5.1 General 6
5.2 Spectral transmittance 6
5.3 Resistance to laser radiation 6
5.4 Stability to UV radiation and stability at elevated temperature 8
5.4.1 Stability to UV radiation 8
5.4.2 Stability at elevated temperature 8
5.5 Mechanical strength 8
5.5.1 Flexible screens 8
5.5.2 Inflexible screens 9
5.5.3 Resistance to ignition 9

6 Marking 10

7 Information supplied by the manufacturer 11

Annex A (informative) Principles 12

A.1 Limit values 12
A.2 Time base used to calculate the MPE values 12
A.3 Resistance to laser radiation 12
A.4 Example test report 14

Annex B (informative) Selection of screens for laser working places 16

B.1 General 16
B.2 Pulsed lasers 16
B.3 Caution for users of laser safety screens 17

Annex C (informative) Significant technical changes between this European Standard and the previous edition 18

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC 19
