Perinorm information – June 2017 issue

hll/svi 2017-05-23

Dear Perinorm User,

1. Changes to the document identifiers of Chinese standards

In the June edition of Perinorm, changes have been made to the document identifiers of 1,076 records issued between 1960 and 2015 in the SAC collection. The issuing body has changed the designation „ “GB” (mandatory standard) to „GB/T“ (non-mandataory standard).
Example: GB 150.1 (2011) has become GB/T 150.1 (2011)

2. Display of terminated warning note

If there is a warning note attached to a DIN Standard and this warning is subsequently lifted, the period over which the warning note applied is stated in the “Notes” field of the record.
Example using DIN EN 350 (2016-12): “From 2017-02-24 to 2017-04-06 a warning note existed for this record.”
