

# DIN EN 13126-9:2013-04 (E)

## Building hardware - Requirements and test methods for windows and door height windows - Part 9: Hardware for horizontal and vertical pivot windows

---

| Contents                                                                       | Page |
|--------------------------------------------------------------------------------|------|
| Foreword .....                                                                 | 4    |
| 1 Scope .....                                                                  | 6    |
| 2 Normative references .....                                                   | 6    |
| 3 Terms and definitions .....                                                  | 6    |
| 4 Classification .....                                                         | 7    |
| 4.1 General .....                                                              | 7    |
| 4.2 Category of use (1 - first digit) .....                                    | 7    |
| 4.3 Durability (2 - second digit) .....                                        | 7    |
| 4.4 Mass (3 - third digit) .....                                               | 7    |
| 4.5 Fire resistance (4 - fourth digit) .....                                   | 7    |
| 4.6 Safety in use (5 - fifth digit) .....                                      | 7    |
| 4.7 Corrosion resistance (6 - sixth digit) .....                               | 7    |
| 4.8 Security (7 - seventh digit) .....                                         | 7    |
| 4.9 Application (8 - eighth digit) .....                                       | 8    |
| 4.10 Test sizes (9 - ninth digit) .....                                        | 8    |
| 4.10.1 Window size for horizontal pivot windows .....                          | 8    |
| 4.10.2 Window size for vertical pivot windows .....                            | 8    |
| 4.11 Example of classification for horizontal and vertical pivot windows ..... | 8    |
| 5 Requirements .....                                                           | 9    |
| 5.1 General .....                                                              | 9    |
| 5.2 Durability .....                                                           | 9    |
| 5.3 Locking point variable tolerance .....                                     | 9    |
| 5.4 Handle operation tolerance .....                                           | 10   |
| 5.5 Balance test for pivot hinges with integrated braking function .....       | 10   |
| 5.6 Resistance to static load .....                                            | 10   |
| 5.7 Resistance to free fall test for horizontal pivot windows .....            | 10   |
| 5.8 Resistance to rebate hindrance test for vertical pivot windows .....       | 10   |
| 5.9 Minimum closing devices resistance .....                                   | 10   |
| 5.10 Corrosion test .....                                                      | 10   |
| 6 Test equipment .....                                                         | 11   |
| 7 Test methods .....                                                           | 11   |
| 7.1 Samples .....                                                              | 11   |
| 7.2 Test order .....                                                           | 11   |
| 7.3 Durability test .....                                                      | 12   |
| 7.3.1 Durability test of normal opening .....                                  | 12   |
| 7.3.2 Reversed position durability test .....                                  | 13   |
| 7.4 Balance tests .....                                                        | 14   |
| 7.5 Static Tests .....                                                         | 14   |
| 7.5.1 Ventilation position static test on horizontal pivot windows .....       | 14   |
| 7.5.2 Ventilation position static test on vertical pivot windows .....         | 15   |
| 7.5.3 Reversed position static test on horizontal pivot windows .....          | 16   |
| 7.5.4 Reversed position static test on vertical pivot windows .....            | 17   |
| 7.6 Free fall test for horizontal pivot windows .....                          | 18   |
| 7.7 Rebate hindrance test for vertical pivot windows .....                     | 18   |

|                                                        |                                              |    |
|--------------------------------------------------------|----------------------------------------------|----|
| 7.8                                                    | Minimum closing device resistance test ..... | 19 |
| 7.9                                                    | Corrosion resistance .....                   | 19 |
| Annex A (informative) Test equipment .....             |                                              | 21 |
| Annex B (normative) Flowchart of test procedures ..... |                                              | 22 |
| Bibliography .....                                     |                                              | 24 |
