## Radiation protection; sealed radioactive sources; leakage test methods

---

| <b>Contents</b>                                                                                            | <b>Page</b> |
|------------------------------------------------------------------------------------------------------------|-------------|
| 1 Scope .....                                                                                              | 1           |
| 2 Normative reference .....                                                                                | 1           |
| 3 Definitions .....                                                                                        | 1           |
| 4 Requirements .....                                                                                       | 2           |
| 5 Test methods by radioactive means .....                                                                  | 4           |
| 6 Test methods by non-radioactive means .....                                                              | 5           |
| <b>Annexes</b>                                                                                             |             |
| A Guidance for the choice of the tests to be carried out according to control and sealed source type ..... | 8           |
| B Bibliography .....                                                                                       | 10          |
