

DIN EN 926-1:2016-02 (E)

Paragliding equipment - Paragliders - Part 1: Requirements and test methods for structural strength

Contents	Page
European foreword	3
Introduction	4
1 Scope	5
2 Terms and definitions	5
3 Requirements	5
3.1 Shock loading	5
3.2 Sustained loading	5
3.3 Breaking strength of the suspension lines	5
3.4 Breaking strength of the main control lines	6
4 Test methods	7
4.1 Apparatus	7
4.2 Test specimen	8
4.3 Test conditions	8
4.4 Shock loading test	8
4.5 Sustained loading test	9
4.6 Line bending test	9
5 Test files	10
5.1 Test file information	10
5.2 Items accompanying the test files	11
6 Manufacturing record	11
7 Marking	12
Annex A (informative) Suspension lines	13
