## Fire detection and alarm systems - Part 4: Power supply equipment

---

| Contents                                                | Page |
|---------------------------------------------------------|------|
| Foreword .....                                          | v    |
| Introduction .....                                      | vi   |
| 1 Scope .....                                           | 1    |
| 2 Normative references .....                            | 1    |
| 3 Terms and definitions .....                           | 1    |
| 4 Symbols and abbreviated terms .....                   | 2    |
| 4.1 Symbols .....                                       | 2    |
| 4.2 Abbreviated terms .....                             | 2    |
| 5 Requirements .....                                    | 2    |
| 5.1 General .....                                       | 2    |
| 5.2 Compliance .....                                    | 2    |
| 5.3 Power sources .....                                 | 3    |
| 5.3.1 General .....                                     | 3    |
| 5.3.2 Main power source .....                           | 3    |
| 5.3.3 Standby power source .....                        | 3    |
| 5.4 Charger .....                                       | 4    |
| 5.5 Faults .....                                        | 4    |
| 5.6 Mechanical .....                                    | 5    |
| 5.7 Power supply interface .....                        | 5    |
| 5.8 Software .....                                      | 5    |
| 5.8.1 General .....                                     | 5    |
| 5.8.2 Program monitoring .....                          | 5    |
| 5.8.3 Storage of programs and data .....                | 6    |
| 5.8.4 Monitoring of memory contents .....               | 6    |
| 6 Tests .....                                           | 6    |
| 6.1 General .....                                       | 6    |
| 6.1.1 Standard atmospheric conditions for testing ..... | 6    |
| 6.1.2 Mounting and orientation .....                    | 7    |
| 6.1.3 Electrical connection .....                       | 7    |
| 6.2 Functional tests .....                              | 7    |
| 6.2.1 The object of test .....                          | 7    |
| 6.2.2 Test schedule .....                               | 7    |
| 6.2.3 Full functional test .....                        | 8    |
| 6.2.4 Reduced functional test .....                     | 9    |
| 6.3 Charger and the standby power source test .....     | 10   |
| 6.3.1 Test procedure .....                              | 10   |
| 6.3.2 Requirements .....                                | 10   |
| 6.4 High battery impedance test .....                   | 10   |
| 6.4.1 Object of test .....                              | 10   |
| 6.4.2 General .....                                     | 10   |
| 6.4.3 Test procedure for non-integrated PSE .....       | 10   |
| 6.4.4 Requirements for integrated PSE .....             | 11   |
| 6.4.5 Test procedure for integrated PSE .....           | 11   |
| 6.4.6 Requirements for integrated PSE .....             | 12   |
| 6.5 Environmental tests .....                           | 12   |

|                             |                                                                         |    |
|-----------------------------|-------------------------------------------------------------------------|----|
| 6.5.1                       | General .....                                                           | 12 |
| 6.5.2                       | Tests for one specimen .....                                            | 13 |
| 6.5.3                       | Tests for more than one specimen .....                                  | 13 |
| 6.5.4                       | Requirements .....                                                      | 13 |
| 6.6                         | Cold (operational) .....                                                | 14 |
| 6.6.1                       | Object of test .....                                                    | 14 |
| 6.6.2                       | Test procedure .....                                                    | 14 |
| 6.6.3                       | Requirements .....                                                      | 14 |
| 6.7                         | Damp heat, steady-state (operational) .....                             | 15 |
| 6.7.1                       | Object of test .....                                                    | 15 |
| 6.7.2                       | Test procedure .....                                                    | 15 |
| 6.7.3                       | Requirements .....                                                      | 15 |
| 6.8                         | Impact (operational) -- Optional test .....                             | 16 |
| 6.8.1                       | Object of test .....                                                    | 16 |
| 6.8.2                       | Test procedure .....                                                    | 16 |
| 6.8.3                       | Requirements .....                                                      | 16 |
| 6.9                         | Vibration, sinusoidal (operational) -- Optional test .....              | 17 |
| 6.9.1                       | Object of test .....                                                    | 17 |
| 6.9.2                       | Test procedure .....                                                    | 17 |
| 6.9.3                       | Requirements .....                                                      | 18 |
| 6.10                        | Electromagnetic compatibility (EMC), Immunity tests (operational) ..... | 18 |
| 6.11                        | Damp heat, steady state (endurance) .....                               | 18 |
| 6.11.1                      | Object of test .....                                                    | 18 |
| 6.11.2                      | Test procedure .....                                                    | 18 |
| 6.11.3                      | Requirements .....                                                      | 19 |
| 6.12                        | Vibration, sinusoidal (endurance) -- Optional test .....                | 19 |
| 6.12.1                      | Object of test .....                                                    | 19 |
| 6.12.2                      | Test procedure .....                                                    | 19 |
| 6.12.3                      | Requirements .....                                                      | 20 |
| 6.13                        | Dry heat (operational) (optional) .....                                 | 20 |
| 6.13.1                      | Object of test .....                                                    | 20 |
| 6.13.2                      | Test procedure .....                                                    | 20 |
| 6.13.3                      | Requirements .....                                                      | 21 |
| 7                           | Test report .....                                                       | 21 |
| 8                           | Marking .....                                                           | 21 |
| 9                           | Data .....                                                              | 22 |
| 9.1                         | General .....                                                           | 22 |
| 9.2                         | Software documentation .....                                            | 22 |
| 9.3                         | Hardware documentation .....                                            | 23 |
| 9.4                         | Installation and user documentation .....                               | 23 |
| Annex A (informative) ..... |                                                                         | 24 |
| Bibliography .....          |                                                                         | 25 |
