

ISO 16232-6:2007-06 (E)

Road vehicles - Cleanliness of components of fluid circuits - Part 6: Particle mass determination by gravimetric analysis

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Principles	1
5 Equipment and rinsing liquids	2
6 Environment conditions and precautions	2
6.1 Work environment	2
6.2 Health and safety	3
7 Lower detection limit for gravimetric analysis	3
8 Preparing the apparatus	3
8.1 Conditioning of equipment	3
8.2 Preparing the membrane filters	4
9 Procedure	4
9.1 Evaluation of the procedure	4
9.2 Liquid analysis procedure	4
10 Reporting the results	5
10.1 Calculating the mass of contaminants	5
10.2 Reporting of the level of contamination of the component	5
11 Test report	6
Annex B (informative) Filtration	9
Bibliography	10
