<b>Overview .....</b>	<b>vii</b>
<b>Laboratory Testing and Specialized Outdoor Exposure Testing</b>	
<b>An Attempt at Finding a Correlation Between Environmental and Accelerated RILEM TC 139-DBS Weathering for One-Component Polyurethane Sealants Applied on Mortar</b>	
E. Pozzi, V. Carcano, and A. Ausilio .....	3
<b>Joint Sealing Systems for Pavements—A New Approach Towards a Performance Related Evaluation of Capability and Durability</b>	
C. Recknagel and S. Pirskawetz .....	15
<b>Long-Term Outdoor Weathering Study of Construction Sealants</b>	
E. D. Bull and G. M. Lucas .....	38
<b>Selective Review of Weathering Tests for Sealants and Thoughts on the Development of Novel Test Concept Based on Simultaneous Weathering and Movement</b>	
J. M. Klosowski and P. D. Gorman .....	73
<b>New Weathering Test Method for Sealants and Preliminary Experimental Results</b>	
J. M. Klosowski and P. D. Gorman .....	84
<b>Effects of Water Immersion on Building and Civil Engineering Joints and the Use of the Arrhenius Method in Predicting Adhesion Lifetime of Water-Immersed Joints</b>	
A. T. Wolf .....	111
<b>Experimental Evaluation of Ultraviolet and Visible Light Curing Acrylates for Use in Glass Structures</b>	
B. Weller and S. Tasche .....	135
<b>Relative Resistance of Silicone and Si-Hybrid Based Sealants to Alternating Periods of Accelerated Weathering and Thermo-Mechanical Movements</b>	
D. Longo and P. Vandereeken .....	157
<b>Evaluation of the Durability Potential of Silyl Terminated Polyacrylate Based Construction Sealant</b>	
Y. Nakagawa and S. Yukimoto .....	165
<b>Factors Influencing the Durability of Sealed Joints and Adhesive Fixations</b>	
<b>Substrate Durability Guidelines Used in Silicone Structural Attachment</b>	
L. D. Carbay .....	185
<b>Adhesion Development of Organic and Silicone Sealants on Wet and Dry Concrete</b>	
F. Gubbels and C. Calvet .....	200
<b>Cleaning Silicone Residue from Glass</b>	
J. M. Klosowski, E. S. Breeze, and D. H. Nicastro .....	217
<b>Resistance of Adhesive Bonding of Ultra-High Performance Concrete to Hygrothermal, Corrosive, and Freeze-Thaw Cycling Environments</b>	
R. Krelaus, G. Wisner, S. Freisinger-Schadow, M. Schmidt, S. Böhm, and K. Dilger .....	227
<b>Durability by Design: New Results on Load-Carrying Silicone Bonding</b>	
A. Hagl .....	254

## **Development of New Test Methods and Performance-Based Specifications**

<b>Evaluation of Silicone Sealants at High Movement Rates Relevant to Bomb Mitigating Window and Curtainwall Design</b>	277
K. Yarosh, A. T. Wolf, and S. Sitte .....	277
<b>Quantification of Effect of Enforced Cyclic Movement and Regional Exposure Factors on Weatherability of Construction Sealants</b>	302
N. Enomoto, A. Ito, and K. Tanaka .....	302
<b>Using Rheology Test Methods to Assess Durability of Cured Elastomers Undergoing Cyclic Deformation</b>	313
G. V. Gordon, L. D. Lower, and L. D. Carbary .....	313
<b>Effect of Strain on the Modulus of Sealants Exposed to the Outdoors</b>	328
C. C. White, D. Hunston, and K. Tean Tan .....	328
<b>Development of Accelerated Aging Test Methodology and Specimen for Bonded CFRP Systems</b>	342
J. Deng, J. E. Tanner, C. W. Dolan, and D. Mukai .....	342
<b>Water Penetration of Cladding Components—Results from Laboratory Tests on Simulated Sealed Vertical and Horizontal Joints of Wall Cladding</b>	359
M. A. Lacasse, H. Miyauchi, and J. Hiemstra .....	359
 <b>Field Experience with Sealed Joints and Adhesive Fixation</b>	
<b>Field Performance and Accelerated Weathering of High Performance Acrylic and Polyurethane Sealants for Tilt-Up Applications</b>	391
V. Demarest, A. Liss, R. Queenan, and P. Gorman .....	391
<b>Author Index</b> .....	413
<b>Subject Index</b> .....	415
