## Biological evaluation of medical devices - Part 11: Tests for systemic toxicity

---

| Contents                                                                                         | Page |
|--------------------------------------------------------------------------------------------------|------|
| Foreword .....                                                                                   | v    |
| Introduction .....                                                                               | vi   |
| 1 Scope .....                                                                                    | 1    |
| 2 Normative references .....                                                                     | 1    |
| 3 Terms and definitions .....                                                                    | 1    |
| 4 General considerations .....                                                                   | 3    |
| 4.1 General .....                                                                                | 3    |
| 4.2 Selection of animal species .....                                                            | 3    |
| 4.3 Animal status .....                                                                          | 3    |
| 4.4 Animal care and husbandry .....                                                              | 3    |
| 4.5 Size and number of groups .....                                                              | 4    |
| 4.5.1 Size of groups .....                                                                       | 4    |
| 4.5.2 Number of groups .....                                                                     | 4    |
| 4.5.3 Treatment controls .....                                                                   | 4    |
| 4.6 Route of exposure .....                                                                      | 5    |
| 4.7 Sample preparation .....                                                                     | 5    |
| 4.8 Dosing .....                                                                                 | 5    |
| 4.8.1 Test sample administration .....                                                           | 5    |
| 4.8.2 Dosage volumes .....                                                                       | 5    |
| 4.8.3 Dosage frequency .....                                                                     | 6    |
| 4.9 Body weight and food/water consumption .....                                                 | 6    |
| 4.10 Clinical observations .....                                                                 | 6    |
| 4.11 Clinical pathology .....                                                                    | 6    |
| 4.12 Anatomic pathology .....                                                                    | 7    |
| 4.13 Study designs .....                                                                         | 7    |
| 4.14 Quality of investigation .....                                                              | 7    |
| 5 Acute systemic toxicity .....                                                                  | 7    |
| 5.1 General .....                                                                                | 7    |
| 5.2 Study design .....                                                                           | 8    |
| 5.2.1 Preparations .....                                                                         | 8    |
| 5.2.2 Experimental animals .....                                                                 | 8    |
| 5.2.3 Test conditions .....                                                                      | 8    |
| 5.2.4 Body weights .....                                                                         | 9    |
| 5.2.5 Clinical observations .....                                                                | 9    |
| 5.2.6 Pathology .....                                                                            | 9    |
| 5.3 Evaluation criteria .....                                                                    | 10   |
| 5.3.1 General .....                                                                              | 10   |
| 5.3.2 Evaluation of results .....                                                                | 10   |
| 5.4 Final report .....                                                                           | 10   |
| 6 Repeated exposure systemic toxicity (subacute, subchronic and chronic systemic toxicity) ..... | 12   |
| 6.1 General .....                                                                                | 12   |
| 6.2 Study design .....                                                                           | 12   |
| 6.2.1 Preparations .....                                                                         | 12   |
| 6.2.2 Experimental animals .....                                                                 | 12   |

|                       |                                                                                                        |    |
|-----------------------|--------------------------------------------------------------------------------------------------------|----|
| 6.2.3                 | Test conditions .....                                                                                  | 13 |
| 6.2.4                 | Body weights .....                                                                                     | 13 |
| 6.2.5                 | Clinical observations .....                                                                            | 13 |
| 6.2.6                 | Pathology .....                                                                                        | 13 |
| 6.3                   | Evaluation criteria .....                                                                              | 14 |
| 6.3.1                 | General .....                                                                                          | 14 |
| 6.3.2                 | Evaluation of results .....                                                                            | 14 |
| 6.4                   | Final report .....                                                                                     | 15 |
| Annex A (informative) | Routes of administration .....                                                                         | 16 |
| Annex B (informative) | Dosage volumes .....                                                                                   | 18 |
| Annex C (informative) | Common clinical signs and observations .....                                                           | 19 |
| Annex D (informative) | Suggested haematology, clinical chemistry and urinalysis measurements <sup>20</sup>                    |    |
| Annex E (informative) | Suggested organ list for histopathological evaluation .....                                            | 22 |
| Annex F (informative) | Organ list for limited histopathology for medical devices subjected to systemic toxicity testing ..... | 24 |
| Annex G (informative) | Information on material-mediated pyrogens .....                                                        | 25 |
| Annex H (informative) | Subchronic rat -- Dual routes of parenteral administration .....                                       | 26 |
| Bibliography          | .....                                                                                                  | 28 |
