

DIN EN 1808:1999-06 (E)

Safety requirements on suspended access equipment - Design calculations, stability criteria, construction, tests

Contents:	Page
Foreword	3
0 Introduction	3
1 Scope	4
2 Normative references	5
3 Definitions	6
4 List of Hazards	21
5 Safety requirements and/or measures	25
6 Structural, stability and mechanical calculations	25
7 Suspended platform	43
8 Hoist, secondary device, pulley and wire rope	50
9 Suspension rig	59
10 Electrical, hydraulic and pneumatic systems	66
11 Control systems	67
12 Verification of the safety requirements	70
13 Marking and warning	72
14 Accompanying documents	74
Annex A (normative) Platform type tests	77
Annex B (normative) Hoist and secondary device type tests	82
Annex C (normative) Suspension rig type test	87
Annex D (normative) Additional requirements	89
Annex ZA (informative) Relationship of this European Standard with EU Directives.	90
