

Perinorm information july 2020

fej/ 2020-07-01

Dear Perinorm user,

Please take note of the following information concerning the current Perinorm:

1. VAT adjustment

As a consequence of the German Government’s decision in June to temporarily reduce VAT, this issue of Perinorm takes into account the new lower rates, which are due to apply starting 1 July. The prices before tax remain the same for standards from DIN and also for rules from other issuing bodies where we have received appropriate notification.

2. Information on individual collections

The following collections have not been updated in this month’s issue (the month they were last updated is given in brackets):

ANSI (2019-03)

The following collections have an unusually large number of changes:

ASTM

The gaps occurring as a result of the ASTM changeover to a new interface (API) have now been closed- It has resulted in a large number of records being retrospectively included and updated (just under 500 new items, giving a total of giving a total of >5200 records).“

3. The following document identifiers have been changed:

AC-CODE	NEW DOCUMENT IDENTIFIER	FORMER DOCUMENT IDENTIFIER	PUB. DATE
