

# Standards Ticker

The service that updates your  
standards collection

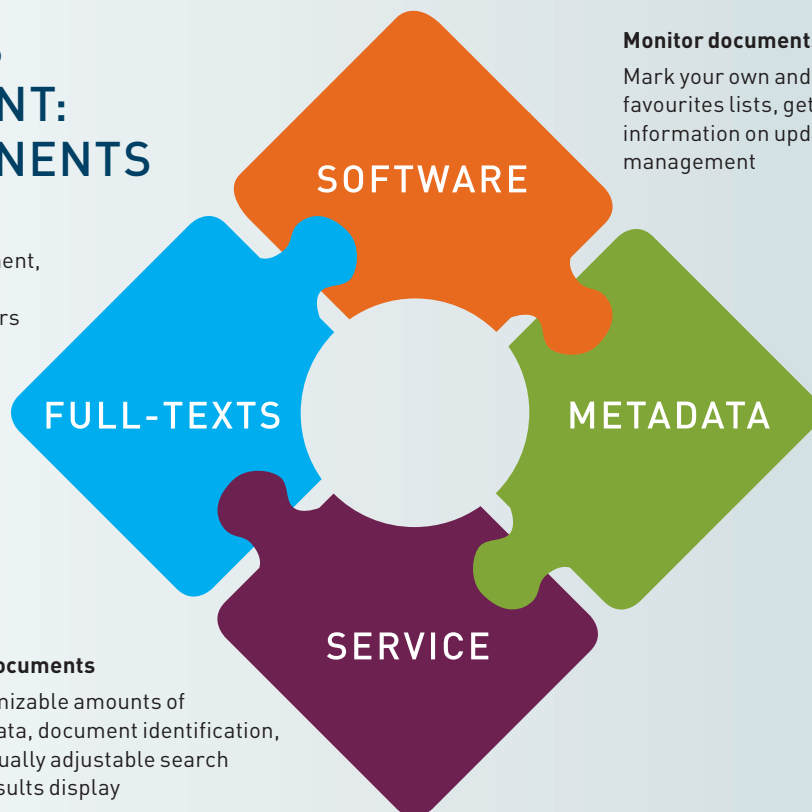

## A UNIVERSAL TALENT

Our multi-talented „Standards Ticker“ service has been helping companies since 1993. Small and medium size businesses as well as large corporations profit from our update service. In times of increased demands on quality, management, compliance and legal security, and with processes constantly accelerating due to digitalization and automation, Standards Ticker helps save time and money.

### STANDARDS MANAGEMENT: THE COMPONENTS

#### Request documents

Centralized order management, incl. request management, prevention of duplicate orders

#### Monitor documents

Mark your own and assigned favourites lists, get regular information on updates, licence management

#### Record documents

Your own document fields, internal document icons, separate search options for internal company data

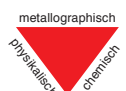

#### Find documents

Customizable amounts of metadata, document identification, individually adjustable search and results display

## CHECK YOUR NEEDS!

More than 5,000 companies are already using our standards management solutions. Join them and try out our solutions to improve the quality of your company processes. Before you decide, you can find out what standards you need - free of charge and without obligation. It couldn't be easier! Just do the Standards Check at [www.beuth.de/en/standards-management](http://www.beuth.de/en/standards-management)

## CUSTOMER REFERENCES

# STANDARDS TICKER – CHOOSE FROM OUR OPTIONS

Choose the option that best suits your needs: Standards Ticker/info and Standards Ticker/doc.

## → Customized information

You select the standards on which you want information. Select the features, number of standards and other details as you need.

## → The bigger picture

We will send you information every six months about documents that could be of interest to you.

## → Instant access

In our Beuth webshop you can review and modify your list of standards any time.

## → Always up-to-date

We ensure that your documents are always current. Upon request, we can notify you of modifications and/or provide you with new or superseding editions of documents.

Normen-Ticker/info

Update service

Regular email giving the current status of your documents and information on superseding documents. With the option to order new documents directly.

We recommend a Standards Flat Rate subscription (includes DIN and ISO Standards as well as VDI Guidelines).

Normen-Ticker/doc

Update service

Regular email giving the current status of your documents and information on superseding documents.

+

Document delivery

Superseding documents delivered automatically – by convenient online download with electronic billing.

→ Today more than 5,000 companies rely on our Standards Ticker service.

Getting started with Standards Ticker is easier than you think! Now directly available from the Beuth webshop: **[beuth.de/go/standards-ticker](https://beuth.de/go/standards-ticker)**
